

**Customer Email Contacts**

We value your business and it is our goal to provide the most streamlined communication and customer service as possible.

More and more, we have found that this is best accomplished by use of email.

This allows us to not only get you a quick response, but also a tracking date/time stamp for your records. It also provides you by virtue of the "Cc:" field with additional backup contacts on our end.

***Please complete the lines below and return with your completed credit application.***
